TO WHOM IT MAY CONCERN***Regarding Loss Assessing Services of Cleary Callanan:***

December 2000, our company SELC Ireland Limited of the above address, had a very serious fire, destroying all of its production facility and warehouse. Serious smoke damage rendered our office facilities unworkable aswell.

The service, support and loss adjusting services of the Cleary Callanan team, under the guidance of Sean Cleary was first class.

Within ten weeks our Insurance Claim was finalised, which enabled our production facility to be re-instated.

Sean Cleary and his team went about their business in a most unobtrusive and professional manner.

We highly recommend both Sean and his team.
